

Doc Reader SDK - Test Document

This is page 1 of the sample PDF file.

The SDK can extract text from PDFs of any size.

It supports both page-by-page and full extraction modes.

Page 2: More content

Feature: Auto type detection by magic bytes

Feature: Streaming for files larger than 10 MB

Feature: Encoding auto-detection via chardet

Feature: TypeScript-first with full type safety

Feature: Works as CLI or programmatic SDK
